

2014

Barrier Beautification

Request for Proposals

BACKGROUND

Since spring 2010, the New York City Department of Transportation (the “NYCDOT”) has partnered with the Mayor’s Community Affairs Unit (the “CAU”) and New York Cares (the “NY Cares”) to produce temporary murals on barrier sites around the City.

This past fall 2013, two artists were selected to develop final designs and oversee the painting of murals onto two barrier sites in the Bronx: 161st Street at Gerard Avenue and Bruckner Boulevard at Bryant Avenue. Approximately 700 linear feet of barriers were covered with bright, colorful imagery on Saturday, October 19th with support from thirty NY Cares volunteers.

This spring 2014, NYCDOT will partner again with CAU and NY Cares to paint two barrier sites around the City. All barrier sites will be primed in advance. Each selected artist will be assigned a site within one of the five boroughs and will be responsible for producing stencils, translating the design and overseeing the painting of the design onto the barriers. NY Cares volunteers will assist selected artists with mural production on Saturday, April 12, 2014.

PROJECT SCOPE

NYCDOT invites artists and/or designers to envision the surface of these ordinary barriers as canvases for art. All interested artists are eligible to submit designs and supporting materials to this open call.

Selected artists shall accomplish the following tasks:

- complete one (1) final design;
- produce stencils to translate design onto barriers; and
- lead volunteers in the process of painting the design onto the barriers.

SITE SPECIFICATIONS

Most of the barriers that have been painted thus far separate bike lanes from vehicular traffic. The overall length of each site will vary based on the barriers’ operational function. However, the dimensions of each barrier are approximately twenty (20) feet in length by three (3) feet in height. NYCDOT shall assign sites to selected artists. Artists must be willing to adapt their conceptual designs to any location.

DESIGN CONSIDERATIONS

All submitted conceptual designs shall:

- consist of a simple, bold pattern that can be painted using stencils over one day by volunteers who may have no training in art (See Appendix A for examples of successful barrier projects);
- consider the uneven surface condition of the barriers;
- consider the function of a barrier as a protective divider within the public realm;
- be solely the result of the artistic effort of the artist; and
- be unique, original and not infringe upon any copyright or the rights of any person.

SELECTION CRITERIA

A jury shall review and rank all submissions based on the following criteria:

- proposed design is aesthetically pleasing and appropriate for the public realm;
- past artwork demonstrates proficiency in design; and
- previous experience demonstrates ability to accomplish large-scale, team-based projects.

NYCDOT will contact selected artists at the beginning of March to implement designs at specific barrier sites. If additional sites become available during the year, NYCDOT will reach out to ranked artists.

PROJECT FEES

Each selected artist will be awarded an honorarium in the amount of \$2,000 to complete a final design, produce stencils to translate the design onto the barriers and oversee the implementation process with volunteers. Additionally, each artist will receive a \$500 stipend to cover the cost of materials to produce stencils to translate the design onto the barriers (i.e. oil board, exacto knives, markers). NYCDOT and NY Cares will provide materials and tools to paint the design.
